

Day 1 - Thursday 14 November 2024		
Session I - Welcome		min
15:00 - 15:30	Collection of documentation	30
15:30 - 15:45	Welcome and inauguration of the course	15
Interactive Workshop I - Images as Roadmaps		
15:45 - 16:15	Trunk & neck melanoma	30
16:15 - 16:45	Breast and armpit	30
16:45 - 17:15	Pelvis and inguinal region	30
17:15 - 17:45	Coffee Break	30
Interactive Workshop II - Devices		
17:45 - 18:15	Rigid Probe and flexible probe	30
18:15 - 18:45	Probe and/or portable gamma-camera	30
18:45 - 19:15	Radioactivity/ fluorescence	30
19:15	End of Day 1	
20:00	Catalan Dinner	
Day 2 - Friday 15 November 2024		
Session III - Contribution of Interventional Nuclear Medicine to Precision-guidance Surgery		
08:30 - 09:00	The strength of the preoperative image	30
09:00 - 09:30	The strength of intraoperative radioguided detection	30
09:30 - 10:00	The strength of the intraoperative image	30
10:00 - 10:30	Coffee Break	30
Session IV - Precision Radiation-guided Surgery in Breast Cancer and in Melanoma and Head and Neck Cancer		
10:30 - 11:00	Precision surgery in breast cancer: past, present and future	30
11:00 - 11:30	Comparative advantages of seeds/radiotracers to address the axilla	30
11:30 - 12:00	Precision surgery in melanoma; past, present and future	30
12:00 - 12:30	Sentinel lymph node in oral cavity cancer. One step beyond	30
12:30 - 13:30	Lunch Break	60
Session V - New Approaches and Possibilities		
13:30 - 14:00	Potential of Nuclear Medicine in neuroendocrine tumor surgery	30
14:00 - 14:30	PSMA and sentinel lymph node as disruptive innovations in the management of prostate cancer	30
14:30 - 15:00	Novel developments for intraoperative detection and imaging in radio-, fluorescence- and hybrid- tracer-guided surgery	30
15:00 - 15:30	Potential applications of Artificial Intelligence in the sentinel lymph node procedure and radio-guided surgery?	30
15:30 - 16:00	Conclusions and farewell	30
16:00	End of Day 2
